Education

FAMAF - UNIVERSIDAD NACIONAL DE CÓRDOBA   Córdoba, Córdoba
Lic. en Ciencias de la Computación   2021-in course
(equivalent to Bachelor in Computer Science)

INSTITUTO PRIVADO DE ENSEÑANZA SAN AGUSTÍN   Córdoba, Córdoba
Bachiller en Economía y Administración   2015-2020

Technical Skills

Programming: TypeScript, JavaScript, Python, C/C++, Java, Haskell, C#, Assembly ARMv8
Frameworks: React, FastAPI, Apache Spark
Testing Frameworks: Jest, Pytest
Databases: mySQL, SQLite, mongoDB
Other: Git, HTML, CSS, Redux, Bootstrap, i18next, Docker, Linux
Languages: Spanish (native), English (advanced), Japanese (beginner)

Projects

El Switcher - Ingeniería del Software I 2024
implementation of "El Switcher" board game for a web-application, allowing multiple lobbies, real-time synchronization of the game-state between all players, persistency against refreshes/disconnections and other features
Frontend technologies: JavaScript, React, Jest, Vite for building
Backend technologies: Python, FastAPI, Pytest, SQLite + SQLAlchemy ORM
all the development was done under the SCRUM Agile methodology

My own portfolio
Created a web-portfolio from scratch, using TypeScript, React, Redux (State-handling) and i18next (for internalization) deployed in github-pages

Professional Experience
none yet, but i'm looking for my first experience
